

TAPA

Paint some cells black to create a continuous wall. Number(s) in a cell indicate the length of black cell blocks on its neighbouring cells. If there is more than one number in a cell, there must be at least one white cell between the black cell blocks. No 2X2 square can have all black cells. There is no wall segment on cells containing numbers.

Answer key 1 : Enter the lengths of longest horizontal shaded cell block for the marked rows
 Answer key 2 : Enter the lengths of longest vertical shaded cell block for the marked columns
