*6	Classic Sudoku	100
*7	Classic Sudoku	100
*8	Classic Sudoku	120
*9	Classic Sudoku	150
10	Classic Sudoku	180
Total		1000

These puzzles use basic and some advanced techniques only. There are 4 Relay puzzles (6, 7, 8, 9 marked with asterisk *). Each Relay puzzles are connected to the previous one. The Relay should be attempted in the given alphabet only. In puzzles 6,7,8,9, the alphabet cells represent the digits that are to be obtained from previous puzzle same alphabet cells.

Example:

		2		5		1		
	C		6		2			
4				7				3
	7		1		9		5	
3		1				9		7
	4		3		7		2	
8	B			9			A	4
			8		1			
		6		2	D	5		

NOTE:
The values marked with A, B, C, D will be sent to the next one.

	C	B						
9			7			A	6	
7		H	1		9		5	
	5	8			2	3		E
F		9	5			6	4	
	1		9		5			2
	2	7			6			9
		G				D	1	

NOTE:
The clues marked with A, B, C, D are same as the previous one.
The values marked with E, F, G, H will be sent to the next one.

				3				
	4	5				7	E	
	1		6		4		2	
		7	3		1	5		
9								G
		H	5		F	6		
	9		7		5		6	
	2	6				1	4	
				4				

NOTE:
The clues marked with E, F,
G, H are same as the
previous one.

Time Bonus

The test carries a time bonus of 10 points per minute saved. Time bonus will be awarded only if all sudokus are solved correctly within the allotted time.

Answer Submission

Answers have to be submitted at www.logicmastersindia.com. No submissions will be allowed after 3:45 p.m. For every puzzle only selected cells will be checked for correctness. These cells can be found by clicking the “Show cells to fill” button. Remember that this button works only after 3:25 p.m.

Note:

- a) There is no partial marking.
- b) Since all championships use paper for solving, we encourage participants to solve on paper and then copy the grid to flash. Flash should be used for submission only. To easily enter the digits/letters, givens will not be shown on the grid by default. Cursor will move automatically to next cell after you type. However for any reason, if you decide to solve it on flash directly, click on "Show Givens" to see all given digits/letters. In this case, cursor will not move to the next cell automatically. Use arrow keys/mouse to move around the grid.
- c) Don't refresh / close the browser before submitting.
- d) Certain browsers (e.g. Mozilla Firefox) cache old copies of files and don't always get the latest copy from the server. You are advised to use other browsers (e.g. Internet Explorer) or clean your browsers cache if the puzzle does not appear after the specified time.
- e) “Save Locally” button is provided for each puzzle. The puzzle status (all filled cells) will be saved locally on your computer. The saved puzzle status will be restored in case the browser crashes / closes / refreshes. Note that pencil marks are not saved / restored.
